Annual Action Plan (2022-23)
Atal Vayo Abhyuday Yojana (AVYAY)
(A Centrally Sponsored Scheme for welfare of Senior Citizens)

1. Long term objective of the Plan:

The Technical Group on Population projections in India has submitted the report that population of Senior Citizens is increasing steadily as details given below:-

2011		Projected							
		2021		2026		2031		2036	
Population	%	Population	%	Population	%	Population	%	Population	%
10.38	8.57	13.76	10.1	16.28	11.5	19.34	13.2	22.74	15.0

General improvement in the health care facilities over the years is one of the main reasons for continuing increase in proportion of population of senior citizens. The well-being of senior citizens is a challenge in view of steady rise in population which is mandated in the Constitution of India under Article 41. Scope of the scheme is to implement the Section 19 and 20 of the Maintenance and Welfare of Parents and Senior Citizens Act, 2007.

Ensuring that Sr Citizens not merely live longer, but lead a secure, dignified and productive life is a major challenge. The traditional norms and values of the Indian society lay stress on showing respect and providing care for the aged. However, in recent times, society is witnessing a gradual but definite decline of the joint family system, as a result of which a large number of parents are being neglected by their families exposing them to lack of emotional, physical and financial support. These older persons are facing a lot of problems in the absence of adequate social security. This reveals that ageing has become a major social challenge and there is a need to provide for the economic and health needs of the elderly and to create a social milieu, which is conducive and sensitive to the emotional needs of the elderly.

A scheme of Atal Vayo Abhyuday Yojana (AVYAY) is launched for achieving following vision and mission:-

Vision: A society in which Senior Citizens live healthy, happy, empowered, dignified and self-reliant life along with strong social and inter-generational bonding,

Mission: Building an envisioned society by providing access to all Indian Sr citizens adequate food, water, shelter, clothing, health care, financial and social security, recreation, required opportunities and resources for their self-fulfillment and empowerment with development of a formal and informal social support system. Further by generation of awareness about the Act and policies of the Government, bring an attitudinal change amongst the people to establish the enlightened society in which senior citizens are enabled to lead active, protected and productive lives with strengthening intergenerational bonding through easy access to the trusted information, opportunities and social support services.

Under Schedule VII of Section 135 of the Companies Act, setting up old age homes, day care centres and such facilities for Senior Citizens is an approved item for CSR funding. However, miniscule amount of CSR funding is flowing into the sector primarily because there is no shelf of projects which the Corporate can take up for funding.

Currently, there is no mechanism for identifying suitable projects for CSR funding in the Senior Citizen segment; and as such, there is an institutional gap in the implementation of this programme. This initiative proposes to bridge this gap.

Objective of the initiative:

- (i) To select reputed institutions through a transparent mechanism for taking up CSR Advocacy on behalf of the elderly segment.
- (ii) To enable preparation of a shelf of projects for CSR funding after due appraisal of the financial viability and socio-economic impact.
- (iii) To prepare an advocacy statement and reaching out to Corporates who are in the CSR bracket to encourage them to take up funding of the elderly care projects already appraised and placed in the shelf.
- (iv) To assist the corporate entities desirous of investing the elderly care segment by coordinating with the Central and State Govts.
- (v) To mobilise Rs.5,000 Cr over the next 4 years from the CSR funds for the elderly care projects.

In short, this will be a bridge between the government and corporate entities keeping in view the welfare of the senior citizens as its central concern
